Evergreen Nursery Co.

Sturgeon Bay, Wis.

Established 1864

TERMS OF SALE

PAYMENT—CASH with order earns 5% discount and free packing. Otherwise packing charged for at actual cost. Regular terms, June 1st net, to customers of known credit.

RATES—25 trees of same variety and size at 100 rate,—250 at 1000 rate.

CLAIMS—We do not entertain claims unless made within six days after receipt of goods.

All orders accepted subject to loss of stock by drought or any other cause beyond our control.

EVERGREEN SEEDLINGS

In the growing of evergreen seedlings the importance of seed sources cannot be over emphasized. We spare no effort in securing seed that we know is true to type and collected only from the best of stocks. All native seed is collected by our own men. We have a particular section of sandy loam on which we grow our seedlings. This produces a far better root system than is usually found on seedlings.

Remember, when buying stock from us you are getting material propagated under vigorous climatic, and ideal soil conditions. Stock has to be hardy to thrive up here in northern Wisconsin. Our soil conditions produce a root system that we are just egotistical enough to believe can't be beat anywhere.

Our sixty-eight years of successful evergreen growing makes us especially fitted to supply the trade with an excellent grade of material at prices you can't afford to overlook.

CHERRIES, SOUR

We are located right in the heart of the largest cherry orchards in the world,—the famous Sturgeon Bay and Door County Cherry orchards. Because of our strategic location in that respect, we have always sold cherry trees to the local orchardists, and annual plantings in this section running as high as 100,000 or more trees annually. The cherry trees we handle are all grown in the famous Kaw valley in Kansas, by one of the largest and best growers there. This section produces some of the best trees grown. The trees are now in storage, and shipment can be made anytime.
